DETAILED ACTION

Response to Arguments

1. Applicant's arguments, see last paragraph of page 7, filed 8/8/2008, with respect to claim 36 have been fully considered and are persuasive. The rejection of claim 36 has been withdrawn.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given (see Applicant's Remarks page 6, lines 14-16 filed 8/8/2008) by Applicant.

The application has been amended as follows:

In the Claims:

In claim 36, line 6, insert -- forming -- at the beginning of part b.

3. This application is in condition for allowance except for the presence of claims 28-30, 32-35 and 40 directed to an invention non-elected without traverse. Accordingly, claims 28-30, 32-35 and 40 have been cancelled.

Allowable Subject Matter

4. Claims 36-39, 41 and 42 are allowed.
5. The following is an examiner's statement of reasons for allowance: Kondo USPN 4,609,935, a closely related art, discloses a method for the manufacture of an integrated circuit

Art Unit: 2893

comprising: forming a contact window in a first insulating layer and extending from the top surface of the first insulating layer through the first insulating layer to a resistor body; and forming a field plate on the first insulating layer and approximately coextensive therewith and with the resistor body, the field plate having a top surface and a bottom surface. However, claim 36 also requires that a portion of the bottom surface extending through the contact window in the first insulating layer and into contact with a first contact region of the resistor. The above limitations in combination with other claim limitations are not taught or fairly suggested by the prior art nor would it be obvious to modify the references of record so as to manufacture the device of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to A. Sefer whose telephone number is (571)272-1921.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Davienne Monbleau can be reached on (571) 272-1945
